SENATE STAFF  
100 CONGRESS BUILDING  
WASHINGTON, DC 20515  
202-512-1000

The Honorable Theodore Deutch, Chairman  
The Honorable Kenny Marchant, Ranking Member  
House Committee on Ethics  
1015 Longworth House Office Building  
Washington, D.C. 20515

Dear Chairman Deutch and Ranking Member Marchant:

I respectfully write to request that the House Committee on Ethics open an investigation into rules broken, and false statements made, by Rep. Adam Schiff (CA-08), Chairman of the House Permanent Select Committee on Intelligence.

On July 25, 2019, President Trump spoke on the telephone with newly elected President Zelenskyy of Ukraine. This call, a transcript of which was released to the public on September 25, 2019, has been the subject of extensive reporting, particularly after the issuance of a "whistleblower complaint" came to light. The anonymous whistleblower raised allegations of alleged impropriety during the call in a complaint filed August 12, which was subsequently released to the public on September 26, 2019.

The House Permanent Select Committee on Intelligence held a hearing on the whistleblower complaint on September 26, 2019. During that hearing, Chairman Schiff gave a widely-inaccurate and distorted "summary" of President Trump and President Zelenskyy's call, grossly misrepresenting the content of the

deliberately false narrative" as proof that he has "brought the integrity of this Committee, and undermined faith in U.S. government institutions."

On October 14, I attempted to meet a deposition, conducted jointly by the Intelligence, Oversight, and Foreign Affairs Committees. I was removed from the deposition by Chairman Schiff. The Chairman's actions appear to have violated House Rule 35, clause 1 (2015), which states: "A Member, Delegate, or Resident Commissioner may not be excluded from participating in evidence at a hearing of a committee or subcommittee [...] unless the House by majority vote authorizes a particular committee or subcommittee, for purposes of a particular series of hearings on a particular article of legislation or on a particular subject of investigation, to close its hearings to Members, Delegates, and the Resident Commissioners by the same procedures specified in this subparagraph for closing hearings to the public."

While the 116<sup>th</sup> Congress's "Regulations for the Use of Depositions Authentically" state that "the chair of the committee receiving the deposition may designate that deposition as part of a joint investigation between committees," and that "Members and designated staff of the committees may attend and ask questions," this regulation does not expressly prohibit expunging attendance from members of other committees. Furthermore, Speaker Pelosi has stated that the current "impeachment inquiry" is being conducted by the Oversight, Foreign Affairs, Intelligence, Ways and Means, Financial Services, and Judiciary Committees. Therefore, because the Committee on the Judiciary shares jurisdiction in the House's current impeachment inquiry, I should not have been excluded from the joint hearing. Chairman Schiff's refusal to admit me into the deposition thus violates longstanding House Rules and the deposition regulations adopted by the 116<sup>th</sup> Congress.

Accordingly, after the House Committee on Ethics thoroughly investigates this matter, I urge you to make all appropriate referrals to the Department of Justice, for further investigation and prosecution.

Sincerely,

Office of Legislative Staff
